

The Longest Time

Oh, oh, oh, For the longest time
Oh, oh, oh, For the longest
If I need my segments to stick tight
I could use the yellow or the white
What else could I do
Use cyanoacrylate glue
My segments must stick for the longest time

Once I learned my yellow glue was gone
Then I dribbled some hot hide glue on
That made my ring fit
When I put my clamps around it
My segments must stick for the longest time

Oh, oh, oh, For the longest time
Oh, oh, oh, For the longest
Sometimes I will use an aerosol
And the greatest miracle of all
Is when sprayed on to
Thick or medium CA glue
My segments will stick for the longest time

[Interlude]
Maybe old glue won't hold very long
If I need joints tight
The glue might be wrong
Maybe I've been clamping too hard
But I've gone this far
And it's more than I hoped for

Who knows how much glue I should put on
If I make a trapezohedron
I'll take my chances
Under these tough circumstances
The pieces must stick for the longest time

[Interlude]

I had second thoughts at the start
I said to myself
They might come apart
Now I've switched to fish glue from a jar
It's wonderful so far
And it's more than I hoped for

I must care what consequence it brings
I must know the bonding of my rings
I want this so bad
I think you ought to know my
segments must stick firmly for the longest time

Oh, oh, oh, For the longest time
Oh, oh, oh, For the longest time
Oh, oh, oh, For the longest time
Oh, oh, oh, For the longest time.
